

Hi Jordan,

I just wanted to take a moment to sincerely thank you for all your hard work and dedication as president of AVBS. Your leadership and the time you invest into making the society a success don't go unnoticed, and it's truly appreciated. You've done an amazing job supporting our students and creating opportunities for networking and growth. I appreciate all the work you do to keep the club functional, even if it means putting every task into your Google calendar!

Dear Jordan

I appreciate everything you do for AUBS and the opportunity you have given me to participate. I admire the patience and flexibility you have for my busy schedule and the doors you have opened for me to connect with many other students. You've given me a chance to escape my comfort zone with the INCBSS presentations and events. You've also allowed me to learn about business and account lol in a more hands on way. I hope what you have created continues on and you find success in your future.

Fly Jordan,

I'm writing this small letter for you, because I don't know if we are going to be in touch or meet again [I want to stay connected tho.

Anyways, I ~~am~~ just wanted to say how grateful I am for being in the same team for almost a year. When I got invite for interview, I was so excited for my new journey.

It was nice to meet new people, I'm glad that I've joined AVBS. ~~like~~ I learn thing one thing for sure [judging people] I polished my this skill here now I think I may choose better people I can surround myself with.

I learned one thing from you,
that is how to manage your time
wisely, & how can you make ~~of~~
people better version of them a bit
as Dane said everybody knows everything
it just they need to talk to themselves
& sometimes I feel like you can't
that's where you come & ask question.
And we already knew answers we were
looking for.

Thank you for being who you are
I've seen changes in you as well
~~know~~ Now, you've become a better listener.
You can do better.

P.S. - I like gratitude threads and one
on one meeting you had, but
sometimes I feel like it is unfair
to people got demoted and others whose
voice never reached.

I think you can change that and be
better you as a leader. Add on ~~no~~ one
more quality. - Thanks to being a part of my life
Always stay committed! ❤️

Ciao Jordan,

Hey Jordan,

shahid

I just wanted to take a moment to express my deepest appreciation for everything you have done as the president of our club. From the very start, you have always been the one who stepped up. You have led us with such strength, grace and unwavering support, always ensuring that everyone felt valued and heard. Your leadership has not only made this club a place where we all have grown but has also shaped each one of us into better people. Your ability to make everyone feel included & appreciated has truly made a difference and I am so grateful to be a part of it.

As we all prepare to graduate, I just want to say thank you for being such an incredible leader and a friend. Wishing you all the best as you continue to lead & inspire.

Jordan, Thank you for giving me advice, when I needed the most. 2 weeks ago, I asked you that what should I do about the job offered to me because I was unsure about how I will be able to manage to my job and full time study. You guided me the step I should take and I did that, It's going awesome now.

You're also the kindest person I have met. You also the kind of person who goes out of his way for others, like bringing lasagna for family day, which means a lot, even though somebody else ate it.

You're like a big brother to me, you listen very patiently to me and guide me way. Also, I don't do a lot work in club, but you still appreciate it. Thank you!

I Just want to thank Jordan!

Thank You!
Jordan

Jordan,

What I can say
for you? "Thank you
for everything. The
"Trust" you have in me.

I could say you're
the reason behind the
Person "I am Today"
you're the one Person
for me like "you know
what I messed up things
now give me advise"

Thank you so much
for everything.

Shivani

To Jordan,

THE PRESIDENT OF AUBS

From day one, you created an environment where everyone feels welcome, valued and inspired. Your ability to bring people together while sharing your ideas and encouraging creativity has truly shaped AUBS into something special. The hard work you've put into this team and club is truly inspiring and I just want to say your doing absolutely fantastic! Your leadership isn't just about decision making it's about empowering others and you do it effortlessly. AUBS wouldn't be the same without you, but I know you're going to continue making a big impact wherever you go.

Cheers,

Connie Stephenson

JT,

Your Commitment to AUBS is commendable,
Your hardwork does NOT go unnoticed.

The Club and our impact would be
non-existent without your presence.

I believe the world will bless you
with greatness for all the positive
energy you put out.

The things I have learned from you
are priceless - The tens of thousands of dollars that
I pay for tuition do not come close to the lessons
you have thought me in leadership. One day I will have
employees and I will be managing a team I will always
remember the lessons you have thought me.

The strict and structured life that you carry
is inspiring to say the least. I am sure that
you will be very successful in the future as
you remind me of those CEO's from the
movies. Or like John Wick. Everyone fears
John Wick because he is a very focused and
meticulous individual who can do anything he puts his
mind to. You look like John Wick, you act like
John Wick; I think you might be John Wick.
